

CASEY HOUSE

**CHIEF NURSING EXECUTIVE
and
DIRECTOR, CLINICAL PROGRAMS**

Casey House is a world-renowned healthcare facility founded in 1988 in Toronto. We provide a continuum of care for people infected and affected with HIV/AIDS through a comprehensive range of residential care (i.e. palliative, supportive and respite care) and community care (i.e. homecare). Casey House is experiencing significant renewal and recently completed a new strategic plan (see www.caseyhouse.com) that articulates an exciting future in meeting the health care needs of people living with HIV/AIDS as the disease continues to evolve. In the near future, a day health program will be introduced.

The Chief Nursing Executive and Director, Clinical Programs is the senior executive who is responsible for all clinical activities. The role reports directly to the CEO. Key areas of responsibility include professional practice, program development and quality management.

The ideal candidate will have a strong background in the three key areas of responsibility. Demonstrated excellence in health care management is also required, as well as an ongoing learning and commitment to working in a changing environment in a small health care organization. Experience in collaborating with other organizations and experience with HIV/AIDS is an asset.

Candidates are encouraged to contact the Chief Executive Officer, Stephanie Karapita, to discuss the role: telephone: 416 962-4040 x239 or email: skarapita@caseyhouse.on.ca

*Casey House is committed to diversity in the workplace and
welcomes applications from the communities we serve.*
